Marble, sculpted wood and oak intertwine in a way that invites you to travel. A patio with an Itale feel, a tropical passageway, a Mediterranean path fragrant with citrus fruits - each of these spaces tells a little of the story, her intimate tastes and her passions. This is the home of a lifetime, a life that fuses harmony with the highest standards of comfort, the vibrant colours of the sky and the earth with the softer colours of an interior that envelops you in its warmth and peace.
